news_web.App_react_alanai

News Web App React Alanai is a web application designed to provide a user-friendly and interactive platform for staying informed about current events. It leverages three key technologies to achieve this: React, Alan AI, News Data Source..Here are some potential functionalities you might encounter: Browsing news, Voice-controlled news consumption.

Face Recognition Based Attendance Management System

This Project aims to develop a Face Recognition-based Attendance Management System that automates this manual process. Utilizing Python's Tkinter library and a database, this system modernizes attendance tracking and enhances time management efficiency.

Personal Portfolio Website

This project aims to develop a dynamic and interactive personal portfolio website using React, a popular JavaScript library and EmailJs Service (EmailJS provides a convenient way to send emails from your React application without managing server-side email configurations). The website will serve as your online presence, showcasing your skills, experience, and accomplishments to potential employers, clients, or collaborators.

Online Quiz Maker

This project focuses on building an interactive Online Quiz Maker application using React, a popular JavaScript library. The application completes to two main user functionalities: creating quizzes and taking quizzes. Creating Quizzes: Intuitive Interface: React's component-based approach allows for a user-friendly interface for constructing quizzes. Taking Quizzes: Dynamic User Experience, Real-time Feedback. Technical Considerations: React Library, State Management, Data Storage. Benefits of using React: Reusable Components, Dynamic User Experience, Scalability.

WORK EXPERIENCE

React Development - Associate

The Entrepreneurship Network

08/2021 - 11/2021

Web Development Campaign

Google Developer Student Club Sharda University

01/2023 - 02/2023

Front-End Web Developer

Virtual Cybertrons Pvt. Ltd.

07/2023 - 08/2023

CERTIFICATES

Certificate of Completion by SmartInternz (08/2022 - 09/2022)

Google Supported Virtual Internship Program

Certificate of Attendance By GlobalLogic (04/2023 - 05/2023)

IT Basics Course

Certificate of Attendance By GeeksforGeeks (08/2023 - 10/2023)

Cloud Bootcamp Sponsored By Google for Developers

ACHIEVEMENTS

Certificate of Achievement

TCS iON Career Edge - Young Professional

Certificate of Participation

Role of Cloud Computing in Digital Era organized by IETE Lucknow Centre
